PRESS RELEASE

SecureTech Announces OTC Ticker Symbol and FINRA Clearance

Roseville, Minnesota – March 23, 2021 – SecureTech Innovations, Inc. (OTC: SCTH), an emerging growth company focused on developing and marketing personal and automobile security and safety devices and technologies, announces that its Form 15c2-11, commonly referred to as Form 211, submission to FINRA has been cleared and shares of its common stock now qualify for trading on the OTC Pink Market under the symbol “SCTH.” SecureTech is applying for Depository Trust Company (“DTC”) eligibility, which will make SecureTech’s stock more accessible to US investors.

DTC is a subsidiary of The Depository Trust & Clearing Corporation. DTC manages the electronic clearing and settlement of publicly-traded companies in the United States. Securities that are eligible to be electronically cleared and settled through DTC are considered “DTC eligible.” This electronic method of clearing securities accelerates the settlement process for investors and brokers, enabling a security to be traded over a much wider selection of brokerage firms.

Kao Lee, SecureTech’s President and CEO, stated, “This is an exciting step forward for SecureTech and its shareholders. We hope to receive DTC eligibility soon, which will be the final step in ensuring that US-based investors can more easily participate and own shares in our rapidly growing company.” Mr. Lee added, “Now that we have successfully completed FINRA’s Form 211 review process – and SecureTech is no longer in a ‘Quiet Period’ – we will resume issuing regular shareholder updates once again.”

About SecureTech Innovations

SecureTech is an emerging growth company focused on developing and marketing personal and automobile security and safety devices and technologies – our products preserve life, protect property, and prevent crime. SecureTech is the maker of [Top Kontrol®](#), the only anti-theft and anti-carjacking system known that can safely stop a carjacking without any action by the driver.
